PROFILE

Full-stack developer with 1 year of commercial experience at S.A.E.T. Srl (Italy) and three production web apps shipped during my BEng (First Class Honours) at Anglia Ruskin University. Comfortable end-to-end across Next.js, TypeScript, Python, Node.js, and PostgreSQL. UK Graduate visa (no sponsorship required), available immediately.

EXPERIENCE

S.A.E.T. Srl

Aug 2022 – Jul 2023

Full-Stack Developer

Costigliole Saluzzo, Italy

- Built and maintained internal management tools used by engineering, production, and logistics teams at a 30-year-old industrial electronics company.
- Shipped customer-facing web features end-to-end in Next.js and TypeScript, from requirements through to production deployment.
- Designed REST APIs in Node.js (Express) and Python, backed by PostgreSQL with Prisma ORM and type-safe schema migrations.
- Worked in a Dockerised dev environment with Git-based code review and structured release workflows, in a small team (2–5 developers).

PROJECTS

UniSphere | Django, React, PostgreSQL, REST APIs

Oct 2025 – May 2026

- Final-year BEng project: a full-stack campus social platform with an AI-personalised feed surfacing relevant societies, events, and posts.
- Architected the full stack: Django REST API, React frontend, and a relational schema with 15+ models. Live at unisphere-arv.vercel.app.

SpecMaster | Next.js, TypeScript, Supabase, Tailwind CSS

Feb 2025 – Jun 2025

- Learning-focused web app for bartenders: 200+ cocktail specs with an XP-based gamification system and a spaced-repetition flashcard engine.
- Integrated Supabase auth, Postgres, and storage with row-level security. Mobile-first dark UI. Live at specmaster-app.vercel.app.

Optima Resume | Next.js, TypeScript, Tailwind CSS

Oct 2024 – Dec 2024

- Privacy-first, fully client-side resume builder optimised for ATS parsing – no backend, no tracking, all data lives in-browser.
- Engineered an ATS-safe PDF export pipeline producing clean semantic output. Live at optima-resume.vercel.app.

EDUCATION

Anglia Ruskin University

Sep 2023 – May 2026

BEng (Hons) Computer Science – First Class Honours

Cambridge, UK

- Final-year project: UniSphere – full-stack campus social platform with AI-personalised feed (Django, React, PostgreSQL).
- Key modules: Software Engineering, Web Development, Databases, Algorithms & Data Structures, Software Architecture, Object-Oriented Programming.

Istituto I.T.I.S. G. Rivoira

Sep 2017 – Jul 2022

Diploma in Computer Science (Informatica) – 90/100

Verzuolo, Italy

- 5-year Italian technical secondary qualification with specialised CS coursework – equivalent to UK A-Levels plus an additional year of CS.
- Core subjects: Programming (Java, C, SQL), Computer Systems & Networks, Electronics, Information Technology, Mathematics.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C, SQL, HTML5, CSS3

Frontend: Next.js, React, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Django, REST APIs

Data: PostgreSQL, Prisma ORM, Supabase

Tooling & Practices: Git, GitHub, Docker, Vercel, CI/CD, Software Architecture, OOP, Agile
